

# GPS-2G/804

VHF/GPS - Combi magnitic Multiband mobile antenna with 3 dBd gain VHF whip

The GPS-2/804 is a whip and base combination for magnetic roof mounting. Combining an integrated GNSS antenna and a high gain VHF whip, specifically 136 - 175 MHz.

With a meticulously constructed base made of PA, it is durable and strong.

The whip is made of stainless steel, black chromed to withstand the harshest conditions.
