#### UHF/GPS - Combi magnitic Multiband mobile antenna with Unity Gain Whip

The GPS-70/804 is a mobile antenna with a UHF whip and magnetic base for roof mounting. Combining an integrated GPS antenna and a unity gain UHF whip, specifically 380-500 MHz.

With a meticulously constructed base made of PA, it is durable and strong.

The whip is made of stainless steel, black chromed to withstand the harshest conditions.
